Date: October 11th, 2018

RE: FY 2018 Q4 CSR Variance Report, For the Period May 1 - July 31, 2018

Introduction

Pursuant to Nevada Revised Statutes (NRS) 388.700(4), the State Board of Education is required to submit a quarterly Class-Size Reduction (CSR) report to the Interim Finance Committee (IFC) on each variance requested by a school district during the preceding quarter; charter schools are exempt. The report must include an identification of the elementary school for which a variance was granted, as well as the specific justification for the variance.

- There are two types of CSR programs funded in Nevada:
 1. Regular CSR: Pupil-teacher ratio; Kindergarten – 16:1; Grades 1 and 2 – 17:1; and Grade 3 – 20:1. This is program is currently funded through Sections 15 and 16 of S.B. 544.

2. Alternative CSR: School districts which are located in a county whose population is less than 100,000 may select the Alternative CSR program which provides flexibility in implementing pupil-teacher ratios in grades 1 through 6 for - Kindergarten – 16:1; Grades 1 through 3 – 22:1 and Grades 4 through 6 (grade 5 and 6 as applicable, when included in an elementary school) – 25:1. This program is authorized through NRS 388.720

For the fiscal year 2017-2018, Section 12 of S.B. 544 provides that funding for CSR shall pay the salaries and benefits of not less than 1,944 teachers to meet required ratios. CSR provides sufficient funds for school districts to meet required ratios at a district level, any remaining funds are allocated to the lowest performing schools with variances in the form of a supplemental payment.

Scope of Report

Attached is the report of variances for the fourth quarter of Fiscal Year (FY) 2018. The report provides a summary of variance requests by school district and specific variance information by school. For each variance request, the following information is presented:

- Respective class size ratios by school and grade
- Star rating pursuant to the Nevada School Performance Framework
- Demographic data such as percent of student population that is low income and percent who are English Language Learners (EL). Values less than 10% are withheld to protect student information and are denoted as “*”.

Executive Summary

For the fourth quarter of the 2017-2018 fiscal year (FY), there was a small decrease in the number of variances requested from 995 to 986 variances in grades kindergarten through six (as applicable). All grades except fourth grade saw minor decreases in the number of variances requested. There were 137,764.22 students in fourth quarter compared to 137,873.73 in third quarter, which is a decrease of approximately 110 students. However, compared to first quarter, enrollment was up by 2,120 students for the year. There were 1,914.11 CSR funded teachers and 4,910.36 non-CSR funded teachers for a total of 6,824.47 teachers in fourth quarter. The total aggregate statewide class size ratio in grades K-6 is 20.18, compared to 20.23 in the third quarter and 20.25 in the first quarter.

Statewide Summary of Variances & Justifications

Variance requests are categorized into four standard potential justifications: Funding limitations, difficulty hiring teachers, facility limitations, and other. Any or all of these justifications are accepted.

Funding limitations was the most common variance justification in fourth quarter of FY 18, which was a factor in 98.0% of variances requested by the districts. Difficulty hiring teachers was the second most common justification in district schools at 96%, followed by facility limitations at 76%. 94% cited both difficulty hiring and funding limitations as the reason for a variance and 75% of district school variance justifications cited all three rationales.

The districts were broken into their grouping type, Large, Centralized, Rural, Small, and Very Small, according to the DSA equity allocation model definitions and were analyzed for commonalities. The large districts, Clark and Washoe, cited a lack of qualified teachers, limited facilities, and inadequate funds as contributors to the variances.

The most common justifications provided by rural districts like Elko, Humboldt, Lander, Nye, and White Pine, was a lack of funding to provide incentives to hire qualified teachers which leads to difficulty in recruiting qualified teachers. In centralized districts like Carson, Churchill, Douglas, and Lyon, funding was the most common factor. In small districts like Lincoln, Mineral, Pershing, and Storey, the most common justification is also funding. Neither district in the very small category, Esmeralda and Eureka, requested variances and so no justifications were provided.

District Grouping Variance Justification

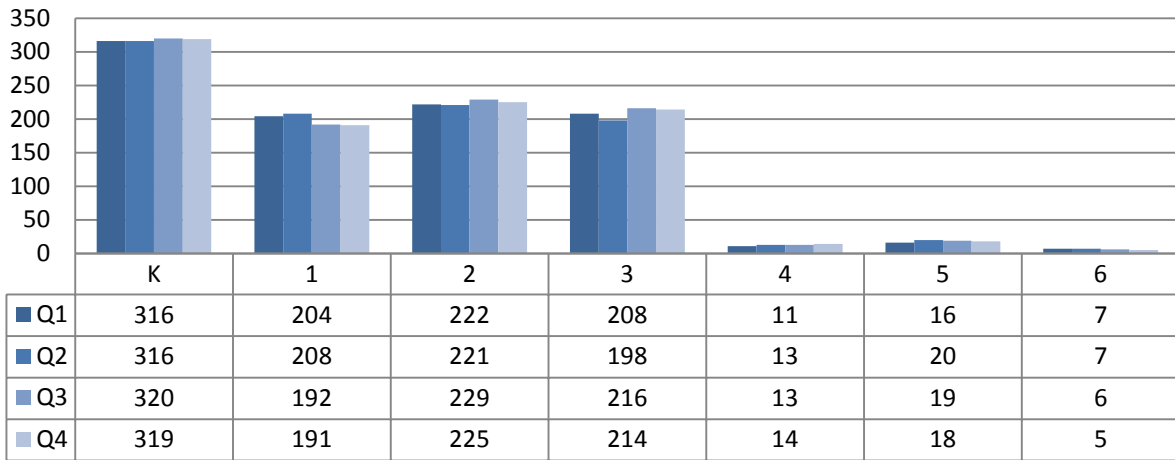

District Grouping	District	Facility	Hiring	Funding	Other
<i>Large</i>					
	Clark	X	X	X	-
	Washoe	X	X	X	-
<i>Centralized</i>					
	Carson	X	X	X	-
	Churchill	-	X	X	-
	Douglas	-	-	X	-

District Grouping	District	Facility	Hiring	Funding	Other
	Lyon	X	X	X	-
<i>Rural</i>					
	Elko	X	X	-	X
	Humboldt	-	-	X	-
	Lander	X	X	X	-
	Nye	X	X	X	X
	White Pine	-	X	X	-
<i>Small</i>					
	Lincoln	X	X	X	-
	Mineral	-	X	-	-
	Pershing	-	-	X	-
	Storey	-	X	X	-
<i>Very Small</i>					
	Esmeralda	-	-	-	-
	Eureka	-	-	-	-

For the fourth quarter in a row, the grade with the most variances is kindergarten, with 13 of the 17 districts exceeding the prescribed ratio of 16 to 1 students per teacher, which is consistent with the first quarter. The most likely driver behind kindergarten variances is again linked to the discontinuation of the kindergarten class size reduction program in the 2017-2019 biennium, which results in the target class size ratio defaulting to a 16 to 1 pupil-teacher ratio.

The grade with the second most variances is second grade, with 6 out of 17 districts exceeding the prescribed ratio (17 to 1 for the regular plan, and 22 to 1 for those on the alternative plan). Statewide, grades kindergarten, first, second, third, fifth, and sixth experienced slight decreases of four or less.

Number of Variances Request FY18

District Level Analysis of Variances

Fourth quarter variance justifications provided by the districts remained the same as the first quarters. Inadequate funding and difficulty hiring are the two biggest obstacles cited by districts as justifications for variance justifications. Individual reports are available upon request.

Q4 FY18 Total Count of Variances

Plan Type	District Name	K	1	2	3	4	5	6	Grand Total

Grand Total		319	191	225	214	14	18	5	986

Eleven school districts have variances in 1 and 2 star schools based on the most recent information published December 15th, 2017. 141 of the 1 and 2 star schools have variances in grades kindergarten through 6th grade, which is an increase of one school. Additionally, the total number of variances increased by 29 to 370, compared to second quarter which had 341 variances.

Count of Variances by District in 1 and 2 Star Schools

School District	Total Number of Schools (All Star Ratings, Grades K-6)	Total Number of 1 and 2 Star Schools	Number of 1 and 2 Star Schools with Variances	% of 1 and 2 Star schools with Variances	Total Number of Variances in 1 and 2 Star Schools (K Only)	Total Number of Variances in 1 and 2 Star Schools (K-6)
Carson	6	2	2	100%	2	2

Total	364	148	141	95.3%	129	359

School Level Analysis of Variances

Attachment A is a list of the justifications for variance requests sorted by CSR plan type, school district, and sorted alphabetically by school name. For example, alternative plan participants are grouped first, then alphabetically by district. Bolded values identify classrooms over the prescribed ratio. Individual variance requests are available for further inquiry.

Class Size Ratios

The district level class size ratios for the fourth quarter are listed below by grade. Bolded values exceed the prescribed ratio. All but three districts exceed the prescribed ratios in at least one grade; Eureka, Lincoln, and Storey. The grade with the most variances is kindergarten, with 13 of the 17 districts exceeding the prescribed ratio of 16 to 1 students per teacher. The grade with the second most variances is second grade, with 7 out of 17 districts exceeding the prescribed ratio (17 to 1 in grades 1-2 and 20 to 1 in grade 3 for the regular plan, and 22 to 1 in grades 1-3 and 25 to 1 in grades 4-6 (as applicable) for those on the alternative plan).

There were 137,764.22 students in grades K through 6th grade in the fourth quarter, which is a slight decrease of 109.51 students or -0.08%. There were 1,914.11 CSR funded teachers and 4,911.36 non-CSR funded teachers for 6,825.47 total teachers, which is 9.78 (0.14% more) teachers more than third quarter 131.9 (1.97%) more than first quarter. The total aggregate statewide class size ratio in grades K-6 is 20.18, compared to 20.23 in the third quarter and 20.25 in the first quarter.

The district level class size ratios for the fourth quarter are provided in the report below. All but three districts exceed the prescribed ratios in at least one grade in the funded grade bands: Eureka, Mineral, and Lincoln. Kindergarten class size ratios remained flat, while first, second, third, fifth, and sixth grade ratios decreased slightly. Fourth grade class size ratios increased by 0.2 pupils.

Plan Level Ratios by Quarter

Statewide Averages		21.30	18.01	19.19	21.94	23.16	23.89	24.09

* Esmeralda does not qualify for CSR funds due to their baseline ratios being less than the prescribed ratios.

Concluding Remarks

There were minimal changes in the number of class size ratio variances requested in the fourth quarter despite a small decrease in overall enrollment. Individual variance requests are available for further review upon request. The Department is committed to working with the State Board and school districts to decrease the number of variance requests, particularly in high need schools. I hope this information is useful to you, if you have any questions, please do not hesitate to contact Megan Hanke via email at mhanke@doe.nv.gov or by phone at 775-687-9236.
