

TLC Agenda Item 5: Proposed Definition of Principal Supervisor

The superintendents of Nevada's school districts engaged in a discussion at the June 18, 2020 NASS meeting and recommended the following definition of Principal Supervisor to be utilized during the implementation of the Nevada Educator Performance Framework.

“Principal Supervisor is defined as a licensed administrator who spends 51%, or more, of their assigned time in activities that directly support principal leadership, development, and evaluation. Additionally, any personnel in this position who are in roles defined as *at-will*, would be exempt from using the Principal Supervisor NEPF Framework due to their at-will status.”
