

ARCHITECTURAL & CIVIL ENGINEERING CURRICULUM FRAMEWORK

Project Lead The Way

This document was prepared by:

Office of Career, Technical, and Adult Education
Nevada Department of Education
755 N. Roop Street, Suite 201
Carson City, NV 89701

The State of Nevada Department of Education is an equal opportunity/affirmative action agency and does not discriminate on the basis of race, color, religion, sex, sexual orientation, gender identity or expression, age, disability, or national origin.

INTRODUCTION

The Nevada CTE Curriculum Frameworks are a resource for Nevada's public and charter schools to design, implement, and assess their CTE programs and curriculum. The content standards identified in this document are listed as a model for the development of local district programs and curriculum. They represent rigorous and relevant expectations for student performance, knowledge, and skill attainment which have been validated by industry representatives.

The intent of this document is to provide a resource to districts as they develop and implement CTE programs and curricula.

This program ensures the following thresholds are met:

- The CTE course and course sequence teaches the knowledge and skills required by industry through applied learning methodology and, where appropriate, work-based learning experiences that prepare students for careers in high-wage, high-skill and/or high-demand fields. Regional and state economic development priorities shall play an important role in determining program approval. Some courses also provide instruction focused on personal development.
- The CTE course and course sequence includes leadership and employability skills as an integral part of the curriculum.
- The CTE course and course sequence are part of a rigorous program of study and include sufficient technical challenge to meet state and/or industry-standards.

The CTE program components include the following items:

- Program of Study
- State Skill Standards
- Employability Skills for Career Readiness Standards
- Career Technical Student Organizations (CTSO)
- Curriculum Framework
- CTE Assessments:
 - Workplace Readiness Skills Assessment
 - End-of-Program Technical Assessment
- Certificate of Skill Attainment
- CTE Endorsement on a High School Diploma
- CTE College Credit

**NEVADA DEPARTMENT OF EDUCATION
CURRICULUM FRAMEWORK FOR
ARCHITECTURAL & CIVIL ENGINEERING**

PROGRAM TITLE:	ARCHITECTURAL & CIVIL ENGINEERING
STATE SKILL STANDARDS:	ARCHITECTURAL & CIVIL ENGINEERING
STANDARDS REFERENCE CODE:	ARENG
CAREER CLUSTER:	SCIENCE, TECHNOLOGY, ENGINEERING & MATHEMATICS
CAREER PATHWAY:	ENGINEERING & TECHNOLOGY
PROGRAM LENGTH:	3 LEVELS (L1, L2, L3C)
PROGRAM ASSESSMENTS:	ARCHITECTURAL & CIVIL ENGINEERING WORKPLACE READINESS SKILLS
CTSO:	SKILLSUSA
GRADE LEVEL:	9-12
AVAILABLE INDUSTRY CERTIFICATIONS/LICENSES PROVIDERS:	

PROGRAM PURPOSE

The purpose of this program is to prepare students for postsecondary education and employment in the Architectural & Civil Engineering industry.

The program includes the following state standards:

- Nevada CTE Skill Standards: Architectural & Civil Engineering
- Employability Skills for Career Readiness
- Nevada Academic Content Standards (alignment shown in the Nevada CTE Skill Standards):
 - Science (based on the Next Generation Science Standards)
 - English Language Arts (based on the Common Core State Standards)
 - Mathematics (based on the Common Core State Standards)
- Common Career Technical Core (alignment shown in the Nevada CTE Skill Standards)

CAREER CLUSTERS

The National Career Clusters™ Framework provides a vital structure for organizing and delivering quality CTE programs through learning and comprehensive programs of study (POS). In total, there are 16 Career Clusters in the National Career Clusters™ Framework, representing more than 79 Career Pathways to help students navigate their way to greater success in college and career. As an organizing tool for curriculum design and instruction, Career Clusters™ provide the essential knowledge and skills for the 16 Career Clusters™ and their Career Pathways.*

PROGRAM OF STUDY

The program of study illustrates the sequence of academic and career and technical education coursework that is necessary for the student to successfully transition into postsecondary educational opportunities and employment in their chosen career path. (NAC 389.803)

PROGRAM STRUCTURE

The core course sequencing provided in the following table serves as a guide to schools for their programs of study. Each course is listed in the order in which it should be taught and has a designated level. Complete program sequences are essential for the successful delivery of all state standards in each program area.

ARCHITECTURAL & CIVIL ENGINEERING	
Core Course Sequence	
COURSE NAME	LEVEL
PLTW-Introduction to Engineering Design	L1
PLTW-Principles of Engineering	L2
PLTW-Civil Engineering and Architecture	L3C
PLTW-Engineering Design and Development*	AS

*Complementary Courses

STATE SKILL STANDARDS

The state skill standards are designed to clearly state what the student should know and be able to do upon completion of an advanced high school career and technical education (CTE) program. The standards are designed for the student to complete all standards through their completion of a program of study. The standards are designed to prepare the student for the end-of-program technical assessment directly aligned to the standards. (Paragraph (a) of Subsection 1 of NAC 389.800)

EMPLOYABILITY SKILLS FOR CAREER READINESS STANDARDS

Employability skills, often referred to as “soft skills”, have for many years been a recognizable component of the standards and curriculum in career and technical education programs. The twenty-one standards are organized into three areas: (1) Personal Qualities and People Skills; (2) Professional Knowledge and Skills; and (3) Technology Knowledge and Skills. The standards are designed to ensure students graduate high school properly prepared with skills employers prioritize as the most important. Instruction on all twenty-one standards must be part of each course of the CTE program. (Paragraph (d) of Subsection 1 of NAC 389.800)

CURRICULUM FRAMEWORK

The Nevada CTE Curriculum Frameworks are organized utilizing the recommended course sequencing listed in the Program of Study and the CTE Course Catalog. The framework identifies the recommended content standards, performance standards, and performance indicators that should be taught in each course.

CAREER AND TECHNICAL STUDENT ORGANIZATIONS (CTSOS)

To further the development of leadership and technical skills, students must have opportunities to participate in one or more of the Career and Technical Student Organizations (CTSOS). CTSOs develop character, citizenship, and the technical, leadership and teamwork skills essential for the workforce and their further education. Their activities are considered a part of the instructional day when they are directly related to the competencies and objectives in the course. (Paragraph (a) of Subsection 3 of NAC 389.800)

WORKPLACE READINESS SKILLS ASSESSMENT

The Workplace Readiness Skills Assessment has been developed to align with the Nevada CTE Employability Skills for Career Readiness Standards. This assessment provides a measurement of student employability skills attainment. Students who complete a program will be assessed on their skill attainment during the completion level course. Completion level courses are identified by the letter “C”. (e.g., Level = L3C) (Paragraph (d) of Subsection 1 of NAC 389.800)

END-OF-PROGRAM TECHNICAL ASSESSMENT

An end-of-program technical assessment has been developed to align with the Nevada CTE Skill Standards for this program. This assessment provides a measurement of student technical skill attainment. Students who complete a program will be assessed on their skill attainment during the completion level course. Completion level courses are identified by the letter “C”. (e.g., Level = L3C) (Paragraph (e) of Subsection 1 of NAC 389.800)

CERTIFICATE OF SKILL ATTAINMENT

Each student who completes a course of study must be awarded a certificate which states that they have attained specific skills in the industry being studied and meets the following criteria: A student must maintain a 3.0 grade point average in their approved course of study, pass the Workplace Readiness Skills Assessment, and pass the end-of-program technical assessment. (Subsection 4 of NAC 389.800)

CTE ENDORSEMENT ON A HIGH SCHOOL DIPLOMA

A student qualifies for a CTE endorsement on their high school diploma after successfully completing the following criteria: 1) successful completion of a CTE course of study in a program area, 2) successful completion of academic requirements governing receipt of a standard diploma, and 3) meet all requirements for the issuance of the Certificate of Skill Attainment. (NAC 389.815)

CTE COLLEGE CREDIT

CTE College Credit is awarded to students based on articulation agreements established by each college for the CTE program, where the colleges will determine the credit value of a full high school CTE program based on course alignment. An articulation agreement will be established for each CTE program designating the number of articulated credits each college will award to students who complete the program.

CTE College Credit is awarded to students who: (1) complete the CTE course sequence with a grade-point average of 3.0 or higher; (2) pass the state end-of-program technical assessment for the program; and (3) pass the Workplace Readiness Assessment for employability skills.

Pre-existing articulation agreements will be recognized until new agreements are established according to current state policy and the criteria shown above.

Please refer to the local high school’s course catalog or contact the local high school counselor for more information. (Paragraph (b) of Subsection 3 of NAC 389.800)

ACADEMIC CREDIT FOR CTE COURSEWORK

Career and technical education courses meet the credit requirements for high school graduation (1 unit of arts and humanities or career and technical education). Some career and technical education courses meet academic credit for high school graduation. Please refer to the local high school’s course catalog or contact the local high school counselor for more information. (NAC 389.672)

RECOMMENDED STUDENT PERFORMANCE STANDARDS**

COURSE TITLE:	PLTW-Introduction to Engineering Design
ABBR. NAME:	PLTW ENG DESG
CREDITS:	1
LEVEL:	L1
CIP CODE:	14.0101
PREREQUISITE:	None
CTSO:	SkillsUSA
COURSE DESCRIPTION	
<p><i>*Schools must be affiliated with the Project Lead The Way™ program to offer this course*</i></p> <p>This course is the entry-level course of the Project Lead the Way™ Pathway to Engineering curriculum. The major focus of IED is the design process and its application. Through hands-on projects, students apply engineering standards and document their work. Students use industry standard 3D modeling software to help them design solutions to solve proposed problems, document their work using an engineer's notebook, and communicate solutions to peers and members of the professional community.</p>	

TECHNICAL STANDARDS

CONTENT STANDARD 1.0 : IDENTIFY LAB ORGANIZATION AND SAFETY PROCEDURES

Performance Standard 1.1 : Demonstrate General Lab Safety Rules and Procedures

Performance Indicators : 1.1.1-1.1.19

Performance Standard 1.2 : Identify and Utilize Hand Tools

Performance Indicators : 1.2.1-1.2.5

Performance Standard 1.3 : Identify and Utilize Power Tools and Equipment

Performance Indicators : 1.3.1-1.3.5

CONTENT STANDARD 2.0 : ASSESS THE IMPACT OF ENGINEERING ON SOCIETY

Performance Standard 2.1 : Describe History of Engineering

Performance Indicators : 2.1.1-2.1.4

Performance Standard 2.2 : Investigate Related Careers in Engineering

Performance Indicators : 2.2.1-2.2.4

Performance Standard 2.3 : Analyze Ethics in Engineering

Performance Indicators : 2.3.1-2.3.4

CONTENT STANDARD 3.0 : ANALYZE THE ENGINEERING DESIGN PROCESS

Performance Standard 3.1 : Interpret the Engineering Design Process

Performance Indicators : 3.1.1-3.1.5

CONTENT STANDARD 4.0 : CONSTRUCT ENGINEERING DOCUMENTATION

Performance Standard 4.1 : Demonstrate Freehand Technical Sketching Techniques

Performance Indicators : 4.1.1-4.1.6

Performance Standard 4.2 : Demonstrate Measuring and Scaling Techniques

Performance Indicators : 4.2.1-4.2.6

.... continue on next page

Performance Standard 4.3 : Utilize Engineering Documentation Procedures

Performance Indicators : 4.3.1-4.3.4

Performance Standard 4.4 : Produce Technical Drawings

Performance Indicators : 4.4.1-4.4.8

Performance Standard 4.5 : Demonstrate Modeling Techniques

Performance Indicators : 4.5.1-4.5.4

EMPLOYABILITY SKILLS FOR CAREER READINESS STANDARDS

CONTENT STANDARD 1.0 : DEMONSTRATE EMPLOYABILITY SKILLS FOR CAREER READINESS

Performance Standard 1.1 : Demonstrate Personal Qualities and People Skills

Performance Indicators : 1.1.1-1.1.7

Performance Standard 1.2 : Demonstrate Professional Knowledge and Skills

Performance Indicators : 1.2.1-1.2.10

Performance Standard 1.3 : Demonstrate Technology Knowledge and Skills

Performance Indicators : 1.3.1-1.3.4

ALIGNMENT TO THE NEVADA ACADEMIC CONTENT STANDARDS*

English Language Arts: Reading Standards for Literacy in Science and Technical Subjects
Writing Standards for Literacy in Science and Technical Subjects
Speaking and Listening

Mathematics: Mathematical Practices

* Refer to the Architectural & Civil Engineering Standards for alignment by performance indicator

**CORE COURSE:
RECOMMENDED STUDENT PERFORMANCE STANDARDS**

COURSE TITLE:	PLTW-Principles of Engineering
ABBR. NAME:	PLTW PRIN ENG
CREDITS:	1
LEVEL:	L2
CIP CODE:	14.0101
PREREQUISITE:	PLTW-Introduction to Engineering Design
CTSO:	SkillsUSA
COURSE DESCRIPTION	
<p><i>*Schools must be affiliated with the Project Lead The Way™ program to offer this course*</i></p> <p>This course is a continuation of the Project Lead the Way™ Pathway to Engineering curriculum. This survey course exposes students to major concepts they'll encounter in a post-secondary engineering course of study. Topics include mechanisms, energy, statics, materials, and kinematics. They develop problem-solving skills and apply their knowledge of research and design to create solutions to various challenges, document their work and communicate solutions.</p>	

TECHNICAL STANDARDS

CONTENT STANDARD 5.0 : INVESTIGATE MATERIAL PROPERTIES

Performance Standard 5.1 : Identify Material Properties and Science

Performance Indicators : 5.1.1-5.1.5

Performance Standard 5.2 : Analyze the Strengths of Materials

Performance Indicators : 5.2.1-5.2.12

CONTENT STANDARD 6.0 : APPLY FUNDAMENTAL POWER SYSTEMS AND ENERGY PRINCIPLES

Performance Standard 6.1 : Investigate Power Systems and Energy Forms

Performance Indicators : 6.1.1-6.1.13

Performance Standard 6.2 : Identify and Utilize Basic Mechanical Systems

Performance Indicators : 6.2.1-6.2.6

Performance Standard 6.3 : Identify and Utilize Energy Sources and Applications

Performance Indicators : 6.3.1-6.3.12

Performance Standard 6.4 : Identify and Utilize Machine Control Systems

Performance Indicators : 6.4.1-6.4.6

Performance Standard 6.5 : Identify and Utilize Basic Fluid Systems

Performance Indicators : 6.5.1-6.5.9

Performance Standard 6.6 : Identify Thermodynamics

Performance Indicators : 6.6.1-6.6.5

CONTENT STANDARD 7.0 : APPLY STATISTICS AND KINEMATIC PRINCIPLES

Performance Standard 7.1 : Utilize Statistics

Performance Indicators : 7.1.1-7.1.9

Performance Standard 7.2 : Utilize Kinematic Principles

Performance Indicators : 7.2.1-7.2.6

EMPLOYABILITY SKILLS FOR CAREER READINESS STANDARDS**CONTENT STANDARD 1.0 : DEMONSTRATE EMPLOYABILITY SKILLS FOR CAREER READINESS**

Performance Standard 1.1 : Demonstrate Personal Qualities and People Skills

Performance Indicators : 1.1.1-1.1.7

Performance Standard 1.2 : Demonstrate Professional Knowledge and Skills

Performance Indicators : 1.2.1-1.2.10

Performance Standard 1.3 : Demonstrate Technology Knowledge and Skills

Performance Indicators : 1.3.1-1.3.4

ALIGNMENT TO THE NEVADA ACADEMIC CONTENT STANDARDS*

English Language Arts: Reading Standards for Literacy in Science and Technical Subjects
Writing Standards for Literacy in Science and Technical Subjects
Speaking and Listening

Mathematics: Mathematical Practices
Number & Quantity – Vector and Matrix Quantities
Algebra – Reasoning with Equations and Inequalities
Algebra – Arithmetic with Polynomials and Rational Expressions
Statistics and Probability – Conditional Probability and the Rules of Probability
Statistics and Probability – Interpreting Categorical and Quantitative Data

* Refer to the Architectural & Civil Engineering Standards for alignment by performance indicator

PROGRAM ASSESSMENTS:	ARCHITECTURAL & CIVIL ENGINEERING WORKPLACE READINESS SKILLS
CTSO:	SkillsUSA

COURSE DESCRIPTION

Schools must be affiliated with the Project Lead The Way™ program to offer this course

This course is a continuation of the Project Lead the Way™ Pathway to Engineering curriculum. Students learn about various aspects of civil engineering and architecture and apply their knowledge to the design and development of residential and commercial properties and structures. In addition, students use 3D design software to design and document solutions for major course projects. Students communicate and present solutions to their peers and members of a professional community of engineers and architects.

TECHNICAL STANDARDS

CONTENT STANDARD 8.0 : EXPLORE ARCHITECTURE AND CIVIL ENGINEERING

Performance Standard 8.1 : Research the History of Architecture and Civil Engineering

Performance Indicators : 8.1.1-8.1.4

CONTENT STANDARD 9.0 : APPLY RESIDENTIAL DESIGN CONCEPTS

Performance Standard 9.1 : Analyze Building Design and Construction Systems

Performance Indicators : 9.1.1-9.1.4

Performance Standard 9.2 : Conduct Cost and Efficiency Analysis

Performance Indicators : 9.2.1-9.2.15

Performance Standard 9.3 : Utilize Residential Design Concepts

Performance Indicators : 9.3.1-9.3.6

CONTENT STANDARD 10.0 : ANALYZE COMMERCIAL APPLICATIONS

Performance Standard 10.1 : Analyze Commercial Building Systems

Performance Indicators : 10.1.1-10.1.5

Performance Standard 10.2 : Investigate Structural Systems

Performance Indicators : 10.2.1-10.2.5

Performance Standard 10.3 : Configure Utilities and Services

Performance Indicators : 10.3.1-10.3.4

Performance Standard 10.4 : Explore Site Considerations

Performance Indicators : 10.4.1-10.4.4

Performance Standard 10.5 : Utilize Commercial Design Concepts

Performance Indicators : 10.5.1-10.5.5

EMPLOYABILITY SKILLS FOR CAREER READINESS STANDARDS**CONTENT STANDARD 1.0 : DEMONSTRATE EMPLOYABILITY SKILLS FOR CAREER READINESS**

Performance Standard 1.1 : Demonstrate Personal Qualities and People Skills

Performance Indicators : 1.1.1-1.1.7

Performance Standard 1.2 : Demonstrate Professional Knowledge and Skills

Performance Indicators : 1.2.1-1.2.10

Performance Standard 1.3 : Demonstrate Technology Knowledge and Skills

Performance Indicators : 1.3.1-1.3.4

Mathematics: Mathematical Practices
Number & Quantity – Quantities
Number & Quantity – Vector and Matrix Quantities
Algebra – Reasoning with Equations and Inequalities
Algebra – Creating Equations
Geometry – Modeling with Geometry

* Refer to the Architectural & Civil Engineering Standards for alignment by performance indicator

COMPLEMENTARY COURSE(S):

Programs that utilize the complementary courses can include the following courses. The Advanced Studies course allows for additional study through investigation and in-depth research.

COURSE TITLE:	PLTW-Engineering Design and Development
ABBR. NAME:	PLTW ENG DESG DEV
CREDITS:	1
LEVEL:	AS
CIP CODE:	14.0101
PREREQUISITE:	PLTW-Civil Engineering and Architecture
CTSO:	SkillsUSA

COURSE DESCRIPTION

Schools must be affiliated with the Project Lead The Way™ program to offer this course

This course is the capstone course of the Project Lead the Way™ Pathway to Engineering curriculum. In this capstone course, students work in teams to design and develop an original solution to a valid open-ended technical problem by applying the engineering design process. Students perform research to choose, validate, and justify a technical problem. After carefully defining the problem, teams design, build, and test their solutions while working closely with industry professionals who provide mentoring opportunities. Finally, student teams present and defend their original solution to an outside panel. Upon successful completion of this program, students will be prepared for entry into an Engineering program at the college level.

TECHNICAL STANDARDS

Students have achieved all program content standards and will pursue advanced study through investigation and in-depth research.

EMPLOYABILITY SKILLS FOR CAREER READINESS STANDARDS

Students have achieved all program content standards and will pursue advanced study through investigation and in-depth research.

SAMPLE TOPICS

- Participate in individual/team competitions
- Participation in an internship or job shadow opportunities
- Explore college and career opportunities
- Complete a capstone project
